

Critical Thinking Checklist (Supplement)

Designed for Lower Grades

Clarity- Understand what you are doing and be able to explain it.

Accuracy- Can you prove it? Where can you find the info? Can you trust the source? Can you trust the person that you received the information from?

Precision- He can throw the ball far. How far can he throw? How are you measuring?

Relevance- The ball is red. Does the color of the ball make a difference in how far the ball can be thrown?

Depth- Focus not just on the topic, but how does topic affect you, your family, your world.

Breadth- Be able to see something from a different point of view. Can anyone give me a different answer?

Logic- Does it make sense?
